Q & A: Waterfront Sewer Forcemain Upgrade Project

In 2018, the City is anticipating that construction will start on the Waterfront Sewer Forcemain Project.

The following questions and answers are intended to provide an overview of the project.

1. **What is the project?**
    This project includes the renewal of approximately 4.6 km of the City's sanitary sewage conveyance system along Hwy 19A from Rockland Road to the Maritime Heritage Centre. The improvements include upgrading the existing forcemain and associated sewage lift stations within this corridor.

2. **Where is the project?**
    The project will follow Hwy 19A from Rockland Road northbound for approximately 4.6 km to the northern limit of the Maritime Heritage Centre.

3. **When is the construction work going to take place?**
    The city is entering detailed design in 2017 and anticipates the first phase of construction to commence in 2018 with the second phase scheduled to start in 2020.

4. **What is the cost of the project?**
    The project costs will be established when the design is complete and the construction costs are confirmed.

5. **Who has been involved in developing the plans?**
    McElhanney Consulting Services Ltd. have recently completed a final options assessment from which Council have provided direction to enter detailed design based on the recommended option. The City has recently closed a competition for design and engineering services and anticipate awarding this contract in the third quarter of 2018.

6. **Who will be constructing the work?**
    At present, the City anticipates tendering the phase 1 works in 2018 and the phase 2 works in 2020. For updates on construction visit the Project Progress page on the City's website.

7. **How will traffic be managed during construction?**
    The project will result in significant impacts the traffic flow on Highway 19A as sections will require full road closure. As a result detour routes will not be confirmed until the project is ready to enter construction.
