

Larwood/Erickson Sewer Upgrade News

July 3, 2018

We're Getting Ready—Here's What You Need to Know

Sewer upgrades will be starting soon in your area. Here are some details to note:

The Larwood/Erickson Sewer Upgrade Project is about to begin. Work under this project includes the renewal and upgrade of sanitary sewer mains on Erickson, Harrogate and Larwood roads. These upgrades are required to address existing conditions and growth related demands in the Jubilee Heights neighbourhood.

Getting Ready for Construction

Work is expected to commence July 9 and be completed by winter 2018. The work will take place on Larwood from Highway 19A to Harrogate, continue south on Harrogate to Erickson and then west along Erickson to Fairmile Road. The work is limited to the road right of way and will only include asphalt replacement. Local residents may experience minor inconveniences while the contractor works past their address.

Road Closures

Traffic management during construction will be the responsibility of the contractor doing the work. More details about traffic interruptions are available on the City's website. Information about road access will be posted with general project information updates on the City's website.

Construction Impacts

During construction, on street parking will be impacted and may not be available in front of your home. As the contractor gets close to service switchovers, people living at all addresses along this route will be contacted in advance so as to ensure any disruption is minimized as your sewer service is switched from the old main to new.
