RECYCLING COMING TO CONDO COMPLEXES AND APARTMENT BUILDINGS!

Campbell River City Council has adopted a Recycling and Garbage Regulation Bylaw to ensure that all multi-family buildings implement recycling services by Dec. 31, 2016.

Provincial financial incentives will enable multi-family buildings to receive recycling services from qualified collectors at a low rate and in many cases free of charge.

Earlier this year, City staff began providing multi-family building owners with information on the provincial funding and anticipated bylaw changes, as well as educational material to use with residents.

Over the next several months, City staff will continue contacting building owners to share information and offer assistance in setting recycling programs in multi-family buildings.
