

ROBRON PARK ALL WEATHER FIELD

Fall/Winter 2015

On Time and On Budget!

Project Overview

Work under this project included the construction of a new artificial turf all weather field. The latest generation of synthetic turf installed at Robron Park is a grass-like ground cover. On athletic fields, it provides a reliable year-round, all-weather playing surface built to withstand extended use and wet weather. Added benefits of all-weather fields include lower-maintenance, a weed-free surface, and a grass-like appearance without watering or fertilizer.

AstroTurf West Distributors Ltd was awarded RFP 15-31 to supply and install the new artificial turf and Musco Sport Lighting, LLC was awarded RFP 15-32 to supply and install the field and pathway lighting. The civil works were delivered by Upland Contracting Ltd.

Funding for the Project

The Robron Park upgrade project was approved by Council in the City's 2015 Capital Plan at a value of \$2.760m. The project was funded through the Community Works Fund (Federal Gas Tax) and previously accumulated City's Parks Parcel Tax. The total cost of the project was \$2,691m.
