

## Municipal Broadband Network Project News

June 29, 2020

### We're Getting Ready—Here's What You Need to Know

Work under this phase of the project includes the installation of micro-duct conduit to service the area of 11th Avenue between Cedar and Dogwood Streets with broadband fibre. Work under this project includes the extension of the city's municipal broadband network from the Community Centre to Dogwood Street.

#### Getting Ready for Construction

Work is anticipated to commence in early July and be completed by August 2020. The work will transition along 11<sup>th</sup> Avenue from Cedar Street to Dogwood Street, and on Dogwood Street from 11th to 12th Avenue.

This work is limited to the road right of way. Local residents and businesses may experience minor inconveniences during construction.

#### Road Closures

This project requires single lane closure and restrictions to on street parking. Work will take place between the hours of 7:00 am to 6:00 pm. Once the installation begins, our goal is to minimize traffic disruptions and keep traffic flowing. The contractor will be required to maintain appropriate traffic control throughout the course of construction and ensure driveway access is maintained at all times.

Signs will be posted to provide clear direction for drivers and pedestrians travelling around the active work zone.

Thank you for your patience as we complete this Capital Project.
